

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + Refrain from automated querying Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. STATE OF NEBRASKA

1913-1914

GOVERNOR JOHN H. MOREHEAD, Commissioner CHARLES W. POOL, Deputy Commissioner SUSAN BARKER, Stenographer

LINCOLN, NEBRASKA

The Claffin Printing Co., University Place, Nebr.

LETTER OF TRANSMITTAL

To Honorable John H. Morehead,

Governor of Nebraska.

Dear Sir—Complying with the provisions of the statutes for the State of Nebraska, I herewith present for your consideration the Fourteenth Biennial Report of the Bureau of Labor and Industrial Statistics, covering the biennium in part, from February 1, 1913, to December 1, 1914.

Respectfully.

CHARLES W. POOL, Deputy Commissioner of Labor.

Lincoln, Nebraska, December 1, 1914.

(RECAP),

ESTABLISHMENT OF THE BUREAU OF LABOR AND THE DUTIES THEREOF

The Bureau of Labor and Industrial Statistics was inaugurated in the year 1887, and has been a source of great benefit to the State of Nebraska, even though the different sessions of the Legislature have made but slight provision in the way of appropriation for the carrying out of the many provisions of the Act creating the office.

The statutes prescribe a multiplicity of duties to be performed by the Deputy Commissioner of Labor, namely:

To collect, collate and publish annually one bulletin upon the manufacturing statistics of the state.

To gather and publish information upon industrial accidents and occupational diseases of the wage earners of the state.

To collect, collate and publish bulletins giving statistical information upon all surplus shipments and products raised or manufactured within the state.

To collect and publish information concerning the state's resources and opportunities.

To inspect all buildings within the state, over three stories in height, as the means of determining whether or not they are properly equipped with fire escapes.

To inspect all theaters and moving picture houses within the state to ascertain if each is properly provided with exits in case of fires, and that booths are constructed in accordance with law.

The inspection of all factories, mills, workshops, mercantile or mechanical establishments, or other concerns, where men and women are employed, for the purpose of improving the sanitary conditions of their surroundings and the hours which they are required to labor, and to see that proper safe-guards are placed around all machinery for the protection of the lives of those who are required to operate the machines.

To maintain a free employment bureau, and to render such assistance as is possible to those seeking employment, and those desiring the services of disengaged persons.

To investigate and inquire into the cause of strikes, lock-outs and all other matters pertaining to the welfare of the laborer.

To see that all persons, firms or corporations employing females keep posted in their places of business placards stating the exact facts as to the hours that their employees are required to work. To co-operate with the truant officers of the different towns and cities to see that the child labor law is not violated.

The legislature appropriated for the last biennium \$6,000.00, exclusive of the salary for the Deputy Commissioner and one stenographer.

For Maintenance of Department

The appropriation of 1913 for the Bureau of Labor and Industrial Statistics, including salary of the Deputy Commissioner and stenographer, aggregated \$10,680.00, divided as follows:

Deputy Commissioner of Labor, per year \$1500; for biennium	\$3000
Stenographer and Librarian, per year \$840; for biennium	\$1680
Total salaries, per year \$2,340; for biennium	\$4680
For traveling expenses, printing, postage, office supplies, telephor	1e,
telegraph, rents, advertising, displays, factory inspectors and sp	e-
cial deputy inspectors, and all incidental expenses, per year \$300	

for biennium\$6000

This amount was appropriated by the Legislature in lieu of the recommendation of my predecessor in office who asked for a total appropriation of \$42,680.00.

The Department has accomplished a great deal during the past two years with the limited appropriation at its command, yet I do not feel that it would be the proper thing for me, at this time, to ask that more money be appropriated, but rather I would suggest that some of the duties devolving upon the Deputy Commissioner of Labor be handled through other channels or, as has been done in the past two years, by co-operation with some of the other departments.

I have received much assistance from personal friends who were pleased to render their services without compensation, and in this manner I have been enabled to greatly add to the usefulness of the Department without th expenditure of money.

Some criticism has been aimed at the Department from sources that should have been pleased to give assistance and advice. Each and every complaint filed with the Department has received careful attention whenever those filing the complaint signed their own names and furnished the name or names of those against whom the complaints were lodged.

In many instances I have found that complaints were made because of an ill-feeling on the part of the complainant toward the party against whom the infractions of the law were charged.

In not one instance has complaint been made about the Department by any persons who had taken the pains to advise themselves as to the different duties required of the Deputy Commissioner of Labor; nor had they called on the official in charge or offered a single suggestion as to any improvements that might be made with a view of bettering the condition of the laboring people. It is a physical impossibility for the Department to perform all of the duties provided in the statutes, and it has been the custom in the past to look after that which appeared to be of the greater importance.

I would suggest that the Legislature amend the law and delegate authority to the Commissioner of Labor to collect fees under certain contingencies. The Department has spent many days in preparing information along special lines for which no charge could be made under the law as it now stands. These fees should be fixed by the statutes, and all fees should be turned into the State Treasury.

Fire Escapes

During my incumbency of the office of Deputy Commissioner of Labor I have had much to do with inspecting fire escapes and suggesting changes that might lessen the life hazard of those who were, by force of circumstances, required to occupy buildings more than two stories high. I have, in most instances, met with no resistance whatever in having the orders of the Department carried to a successful termination.

In this connection I feel that my duty to the boys and girls of Nebraska will not have been performed unless I earnestly urge the enactment of a law compelling the officers of school districts, wherein are located school buildings more than one story high, to provide adequate means of escape in case of fire for the little folks. In my judgment all buildings, two stories high, occupied as schools rooms, should be provided with some means of easy exit from the buildings in case of fire.

The Law Pertaining to Employment of Females.

The Legislature of 1913, very wisely, in my judgment, passed an Act naming nine hours instead of ten hours as the limit that a female might be required to labor in certain lines of industry, namely:

Manufacturing, mechanical or mercantile establishments, laundry, hotel, restaurant, office or by any public service corporation, the hours being so arranged that females should not begin work earlier than 6:00 o'clock a. m., or labor later than 10:00 o'clock p. m., except those who are employed by public service corporations, and they are permitted to work between the hours of 10:00 p. m. and 6:00 a. m., but in no event shall such employment be for more than eight consecutive hours.

The change in this law which became effective July 17, 1913, has been the cause of great annoyance to the Department, the public and those laboring under its restrictions. As a rule the Department has met little resistance in its endeavors to enforce the provisions of this Act, but in many instances it has proven a hardship to those whom it was passed to benefit.

Many females have been displaced by males because of the fact that

they were not permitted to work until 12:00 o'clock at night, notwithstanding the fact that they desired to do so. Many complained that the law granting special privileges to the public service corporations in their employment of females was unfair.

The Department was forced to prosecute two public service corporations in order to establish the authority given it by the law.

The first prosecution resulted in conviction and fine, and before the hour set for trial of the second case the corporation plead guilty and paid a fine, thereby admitting error on its part and acknowledging that the ruling of this department was sustained by the statutes of Nebraska.

In another instance the Department was forced to bring action against the manager of a cafe for requiring his female help to labor more than the number of hours provided by the statutes, and resulted in the payment of fine and costs by the defendant.

Child Labor Law

Nebraska has a child labor law which appears to meet with universal commendation from all sections of the country and in conjunction with the truant officers of the different sections of the state, the Department has contributed, in no small degree, to its enforcements and very few complaints have been registered that were founded on a substantial basis.

The percentage of children employed in the different industries in the state is very small and with proper supervision, the annoyance caused thereby, should be entirely eliminated in the near future.

Theaters and Moving Picture Shows

The law makes it the duty of the Deputy Commissioner of Labor to investigate all complaints arising through oversight or carelessness on the part of owners, managers or lessees of theaters and moving picture shows. The greater number of complaints filed with the Department were caused by a lack of exits properly placed and improper lining in the operating booths.

When these matters have been called to the attention of the person in charge, steps have been taken immediately to correct the error, and in no instance has the Department been forced to institute proceedings to force a compliance with its orders.

Inasmuch as quite heavy expense is frequently incurred in making inspections of buildings or rooms coming under this law, it appears to me that it would be the part of wisdom for the Legislature to amend the law requiring each and every play-house to pay a reasonable sum of money for a certificate from the Bureau of Labor showing that they had complied fully with the law and were permitted to cater to the wants of the public. This would be a source of revenue to the state, and at the

same time give reputable play-houses better standing in the community. This tax should be placed more heavily upon persons who travel through the country and exhibit at different towns. Not one dollar of revenue is received by the Department of Labor other than through the appropriations made by the Legislature for its maintenance, and I think it only good business judgment to require slight compensation for the necessary expenses incurred in inspecting the institutions which come under this law.

Manufacturing Industries of Nebraska

In our efforts to place before the public the fact that Nebraska is a manufacturing, as well as a leading agricultural state, the Department has made great effort to get a report from each concern engaged in that line of endeavor. We have received reports from one thousand seven hundred fifty-six (1756) institutions operating in the state during 1913. These concerns employed fifty thousand seven hundred eighty-four (50,-784) laborers during the year, for which they paid in wages \$20,025,850.00. Capital invested aggregated \$75,065,848.00, while the cost of material amounted to \$147,363,757.00 and the manufactured product was valued at \$175,204,779.00. While this shows an increase of five hundred ninety-four manufacturing institutions over the preceding year, it is not claimed that these are new concerns, but shows a more ready compliance with the demands of the Department made upon those who were engaged in this business.

The Department is under obligation to the Secretary of the Manufacturer's Association of Nebraska for assistance in securing a part of this increase, and I believe the report for 1914 should add considerably to the number herein given.

In many instances it has required from three to four appeals before a report covering the questions asked would be properly answered by the manufacturer, notwithstanding the fact that the law places a severe penalty upon any who may decline to comply with the request for such information.

Factory Inspection

The inspection of factories or manufacturing plants during the past two years has received very careful consideration from the Department, and many changes have been made with a view to lessening the hazard of life to the employees.

The number of accidents reported to this Department as having occurred in factories and other institutions, (which are by law required to report to this Department) in the past twenty-five months, amount to a grand total of 501. Of those accidents reported, but seven proved fatal, and the number of days lost by those who were injured in accidents total up 5,146 days. The eDpartment has had the hearty co-operation of man-

agers and owners of factories in its endeavor to place safety guards around dangerous pieces of machinery, and it would appear to the casual observer that the hazard to life has been very materially lessened by the work performed through the inspections made by the Bureau of Labor.

It is by law made the duty of the inspector to investigate and pass upon the sanitary conditions under which the men and women employed in factories are required to labor, and it is a great satisfaction to be able to state that in every instance where it was possible to make the conditions more sanitary, changes have readily been made at the suggestion of the Department.

Workingmen's Compensation Law

The Department is unable to discuss the workkings of this law from the fact that it did not become operative until the first of December, 1914, having been adopted by the people at the November 3rd election.

I believe this measure, with some slight amendments to be suggested at the coming session of Legislature, will prove of great value, not only to the laboring men but to the employers of labor.

The Minimum Wage Commission

The Legislature of 1913 very wisely, I think, passed a measure providing for a Minimum Wage Commission, but owing to an oversight on the part of those having the measure in charge, no appropriation was made by which the law could be invoked should it become necessary, and it is certainly hoped the coming session will make adequate provision for the future in that respect. Had this law been operative, it would undoubtedly have been used on one or two occasions during the past year.

The Board of Mediation and Investigation

A measure providing for the reorganization of a board of mediation and investigation was passed by the Legislative session of 1913, and an appropriation of \$2,000.00 made for use should the board have occasion to make such investigations as are contemplated in the Act. Fortunately no occasion has arisen for any investigation along the lines covered by the statutes, hence no meeting of the board has been held since its appointment by the Governor, as provided by law.

Free Employment Bureau

This feature of the Bureau of Labor and Industrial Statistics is not taken advantage of by the general public to as great an extent as it should be. During the past two years I have been instrumental in placing several hundred persons in positions, some of them permanent but the greater number only temporary, and I feel that if it were more

generally understood throughout the state that this Department was maintained with a view to not only providing employment for those out of work, but also supplying the needs of those seeking assistance on the farm and in the workshop, the usefulness of the Department would be more fully appreciated. No charge being made by the Department for services rendered in this connection, it occurs to me that greater publicity should be given the public as to the service they might secure by application here.

I believe a law should be enacted requiring all labor agencies operating in the state to procure a license from the Commissioner of Labor before engaging in that line of business. It is true these agencies are at present operating under ordinances adopted by the different cities in which they are located, but so much complaint has reached this Department concerning this method of doing business that I suggest a state supervision of all such agencies.

1012

FINANCIAL STATEMENT

Foowing is a complete statement of all monies paid out, and to whom paid, by the Bureau of Labor and Industrial Statistics covering the period from April 12, 1913, to Nov. 30, 1914. The amount of \$6,000.00 was appropriated by the legislature for the Department's use, from April 1, 1913 to April 1, 1915, and as but four month remain until the close of the biennium, it would seem that a neat surplus should revert to the State. This does not include the salaries of the Deputy Commissioner of Labor or the Stenographer, which are provided for under a different head.

ARTICLE II EMPLOYMENT REGULATIONS

3561 Sec. 11. Ten hours a day labor.—Ten hours shall constitute one day's labor, so far as it concerns laborers and mechanics, throughout the state. (R. S. p 379; Ann 6937; Comp 6273.)

3562 Sec. 12. Duty of employers to supply seats.—It shall be the duty of every agent, proprietor, superintendent or employer of female help in stores, factories, offices, or schools within the State of Nebraska to provide a chair, stool, or seat for each and every such employee, upon which their female workers shall be allowed to rest when their duties will permit, or when said position does not interfere with the faithful discharge of their incumbent duties. (1883 p 229; 1913 p. 644; Ann 6938; Comp 7914c.)

3563 Sec. 13. Same—penalty for not providing.—Any neglect or refusal to provide a chair, stool or seat for every female worker in the employ of any agent, proprietor, superintendent or employer in the State of Nebraska shall be deemed a misdemeanor, and upon conviction thereof such agent, proprietor, superintendent or employer shall be fined in a sum not less than ten dollars nor more than two hundred dollars, and stand committed until such fine be paid, and shall likewise be liable to an action for damages to such female worker whose health has been injured by this neglect of her employer to provide a chair, stool or seat, as required by the next preceding section. (1883 p 229; Ann 6939; Comp 7914D.)

3564 Sec. 14. Limit for employment of female.—No female shall be employed in any manufacturing, mechanical or mercantile establishment, laundry, hotel or restaurant, office, or by any public service corporation in this state more than nine hours during any one day or more than fifty-four hours in one week. The hours of each day may be so arranged as to permit the employment of such female at any time from six o'clock a.m. to ten o'clock p.m., but in no case shall such employment exceed nine hours in any one day: Provided, however, such female shall not be employed between the hours of 10 p.m. and 6 a.m.; provided, further, public service corporations may employ females between the hours of 10 p.m. and 6 a.m., but in no event shall such employment be for more than eight consecutive hours. (1899 p 362; 1913 p 388; Ann 6940; Comp 7914c.)

Decision under former section. Wenham v State, 65 Neb. 394 (91 N. W. 421).

3565 Sec. 15. Hours required posted up.—Every such employer shall post in a conspicuous place in every room where such females are em-

ployed a printed notice stating the number of hours work required of them each day of the week, the hours of commencing and stopping such work, and the hours when the time or times allowed for dinner or for other meals begins and ends. Printed forms of such notice shall be furnished by the deputy labor commissioner, and the form of such notice approved by the attorney general of this state. (1899 p. 362 Ann. 6941; Comp. 7914f.)

3566 Sec. 16. Seats must be provided.—Every such employer in such establishment, shall provide suitable seats for the females so employed, and shall permit the use of such seats by them when they are not necessarily engaged in active duties for which they are employed. (1899 p. 363; Ann. 6942; Comp. 7914g.)

3567 Sec. 17. Penalty.—Any employer, overseer, superintendent or other agent of any such employer who shall violate any of the provisions of the three next preceding sections, shall be fined for each offense in a sum not less than twenty dollars nor more than fifty dollars; and it is hereby made the duty of the deputy labor commissioner to enforce the provisions of the three next preceding sections. (1899 p. 363; Ann. 6943; Comp. 7914h.)

GENERAL INSPECTION LAW

Be it Enacted by the People of the State of Nebraska:

Section 1. That sections 9992, 9993, 9994, 9995, 9996, 9999X1, 9999X2, 9999X3, 9999X5, Cobbey's Annotated Statutes, 1911, be amended to read as follows:

Section 9992. Every factory, mill, workshop, mercantile or mechanical establishment or other building where one or more persons are employed, shall be provided within reasonable access, with a sufficient number of water-closets, earth closets, or privies for the reasonable use of the persons employed therein, and whenever male and female persons are employed as aforesaid together, water-closets, earth closets or privies separate and apart, shall be provided for the use of either sex, and plainly so designated, and no person shall be allowed to use such closet or privy assigned to the other sex. Such closet shall be properly enclosed and ventilated and at all times kept in a clean and good sanitary condition. When the number employed is more than twenty of either sex, there shall be provided an additional closet for each sex up to the number of forty, and above that number in the same ratio. The Labor Commissioner, his Deputy or any Factory Inspector, may require such changes in the placing of such closets as he may deem necessary and may require other changes which may serve the best interest of morals and sanitation.

Section 9993. In factories, mills or workshops, mercantile or mechanical establishments or other places where the labor performed by the operator is of such a character that it becomes necessary to change the clothing, wholly or in part, before leaving the building at the close of the day's work, separate dressing rooms shall be provided for females whenever so required by the Labor Commissioner, his Deputy or any Factory Inspector. It shall be the duty of every occupant, whether owner or lessee of any such premises used as specified by this act, to make all the changes and additions thereto. In case such changes are made upon the order of the Commissioner of Labor, or any Factory Inspector to the lessee of the premises, the lessee may at any time within thirty days after the completion thereof, bring an action against any person or corporation or partnership having interest in such premises, and may recover such proportion of expenses of making such changes and additions as the court adjudges should justify and equitably be borne by such defendant.

Section 9994. If in any of the aforesaid places, any process is carried on, by which dust or fumes is caused, which may be inhaled by the persons employed therein, or if the air should become exhausted or impure, there shall be provided a fan or other such mechanical device as will substantially carry away all such dust or fumes or other impurities, subject

to the approval of the Commissioner of Labor, his Deputies or Factory Inspectors.

Section 9995. All of the aforesaid places shall be kept clean and free from effluvia arising from any drain, privy or nuisance, and shall be ventilated and kept in a sanitary condition. The Labor Commissioner, his Deputy or any Factory Inspector, may require such changes or additions to be made in any of the aforesaid places as will promote the best measures of sanitation.

Section 9996. All persons, companies or corporations operating any factory or workshop where grinding wheels, or grinding machines, emery wheels or emery belts of any description are used either solid emery, leather covered. felt. canvas. linen. paper, cotton. or belts rolled or coated with emery or carborundum or cotton deemed · necessary, wheels used buffs. shall. when Commissioner, his deputy or any Factory provide such wheels or belts with blowers or similar apparatus, which shall be placed over, beside or under such wheels or belts in such manner as to protect the person or persons using the same from particles of the dust produced and caused thereby, and to carry away the dust arising from or thrown off by such wheels or belt while in operation directly to the outside of the building or to some receptacle placed so as to receive and confine such dust; Provided, that grinding machines upon which water is used at the point of grinding contact and other wheels used for tool grinding shall be exempt from the provisions of this act.

Section 9999XI. It shall be the duty of any person, company or corporation operating any factory, mill, workshop, mercantile or mechanical establishment or other institution where machinery is used, to provide or construct such guards and protection as will protect all employes against injury from belting, shafting, gearing, elevators, drums, saws, cogs, electric currents, or any vessel filled with molten metal or hot liquid which shall be properly protected by placing guards, boxing or screens to prevent all such, and they shall also furnish and supply therein belt shelters or other safe mechanical contrivance, for the purpose of throwing on or off belts or pulleys, which can be operated from the floor. Such guards and protections shall be constructed in the following manner: All exposed cogs or gears shall be inclosed in metal casings or woven wire screens, every protruding set-screw in collars and couplings of shaftings or other revolving machinery shall be countersunk or covered with metal boxing, all keys or shaftings, wheels, etc., shall not be allowed to project from the ends of shafting and all dead ends of shaftings shall be enclosed in metal casings or boxings, all pulleys, belts and shaftings must be protected by boxings or inclosing the dangerous parts with metal or other suitable material. Belts shall not be allowed to rest on shafting when machinery is in motion. Rest hooks must be provided which will hold the belting free from shafting, all machines known as roll-feed in which the operator feeds, by hand, the material, there shall be placed at

the point where material is fed into the rolls, roll guards. A device for instantly stopping the machine by the hand or foot shall also be provided which shall be within reach of the operator when operating the machine.

There shall be placed around each laundry extractor or other exposed high speed revolving machinery, when in motion, a metal or other suitable screen. Wood planers, wood shapers, swing saws, equalizing saws, circular heading jointers, wood polishers, buzz planers, lathe bolters and all similar machines shall be equipped with safety devices necessary for the protection of the operators, said protection to be constructed of such materials as will afford the proper protection and shall be subject to the approval of the Commissioner of Labor, his Deputy or any Factory Inspector. Signs or indicating lamps shall be used at all switches, in electric light and power plants or other places where high pressure currents are used, to show whether the current is on or off the circuit. When current is turned off a circuit, for repair, the switch must first be tagged as a means of showing for whom it is turned off and said tag shall bear the name of the person for whom switch is so tagged. Said tag shall not be removed or current turned on until the person for whom it was tagged shall notify the operator that his work has ceased.

Every elevator, whether freight or passenger, shall be equipped with a speed governor safety device, every elevator shall be equipped with gates or doors to be not less than five feet in height, all freight elevators shall be equipped with a signal or gong to warn persons of its approach.

Where a number of boilers deliver to a common steam main, there shall always be a shut-off or throttle valve for each boiler to take it out of service for repairs, and inspection which necessitates the entry therein of the workmen. A metal shield shall be constructed covering the handwheel of the valve, hinging in the center and containing hasp and lock and said shield to be painted red and marked with the words "Man in Boiler." The workman shall be allowed to retain key in his possession while in said boiler.

Every factory or other institution, more than two stories in height, shall be equipped with outside fireproof, iron stairways, chutes or to-boggans. Also one automatic fire escape for every fifteen persons working or congregating therein at any one time, who, for any reason, are unable to reach or use the outside fire proof stairways, chutes or to-boggans.

Section 9999X2. It shall be the duty of the owners or superintendents of all factories, workshops, mills, or mechanical establishments or other institutions where one or more persons are employed to report in writing to the Labor Commissioner or his Deputy, all fatal accidents within forty-eight hours after their occurrence; and all accidents within two weeks after their occurrence shall be reported in writing by the person in charge of such establishment or place of employment to the said Labor Commissioner or his Deputy, stating as fully as possible the cause

of such accidents, together with the nature and extent of all such injuries and the probable loss of time which will result therefrom.

Section 9999X3. The Provisions of Section 9996 shall not apply to existing mills, factories or workshops which, at the time of the passage of this act, have an appliance or appliances designed and used for the purpose of removing such dust from the polishing floor room, and which said appliance or appliances substantially effect such design.

Section 9999X5. For the purpose of carrying out the provisions of this act, the Commissioner of Labor, the Deputy Commissioner of Labor Factory Inspectors are hereby authorized inspect all factories. mills. workshops, mercantile chanical establishments or other places of employment where or more persons are employed as the means of determining where the provisions of this act are being violated. The Deputy Commissioner of Labor may appoint such persons as are necessary to serve as factory inspectors for the purpose of making inspections under the provisions of this act, such persons so appointed shall be under the direction and control of the Deputy Commissioner of Labor, and shall receive such compensation as shall be fixed by the Deputy Commissioner of Labor, not to exceed four dollars per day and traveling expenses, compensation for services and traveling expenses provided for in this act shall be paid by the State Treasurer out of the general appropriation of traveling expense fund for the Bureau of Labor and Industrial Statistics, upon the warrant of the State Auditor in like manner as other warrants are drawn upon the funds of the Bureau of Labor and Industrial Statistics. It shall also be the duty of the Deputy Labor Commissioner, or his Deputies, and every Factory Inspector of this state upon ascertaining the facts that the proprietors or managers of any factory, workshop, mill, mercantile or mechanical institution or other concern where one or more persons are employed have failed to comply with the provisions of this act, to make complaint of the same in writing before a justice of the peace or police magistrate having jurisdiction, who shall thereupon issue his warrant, direct to the owner, manager or agent, in such factory or workshop, who shall be thereupon proceeded against for the violation of this act as hereinafter mentioned, and it is made the duty of the prosecuting attorney to prosecute all violations of this act.

Section 2. That the said original sections 9992, 9993, 9994, 9995, 9996, 9999X1, 9999X2, 9999X3, 9999X5, Chapter XLIV of Cobbey's Annotated Statutes of Nebraska for 1911 as they now exist be and the same are hereby repealed.

Section 3. Whereas, an emergency exists, this act shall take effect and be in force from and after its passage and approval.

Approved April 11, 1913.

JOHN H. MOREHEAD,

Governor.

FIRE ESCAPE AND THEATRE LAW AND REGULATION

An act to provide fire protection and fire escapes, and regulation thereof, under the supervision of the Commissioner of Labor, or Deputy Commissioner of Labor, for places of public assemblage and entertainment and buildings two or more stories high, providing for the expense thereof, penalties for violation of this act, means for prosecuting persons, who violate its provisions, and to repeal Section 6929, of Cobbey's Annotated Statutes of Nebraska for 1909.

Be It Enacted by the Legislature of the State of Nebraska:

Section 1. That after the passage and approval of this Act, every hotel, boarding house, store house, tenement house, every building now or hereafter used in whole or in part, as a public building, public or private institution, office or store building, school house, theater, public hall, place of assemblage or place of public resort, more than two stories high and containing above the ground floor sleeping apartments, offices, assembling hall, work rooms or a room intended to be used as a place of amusement, all or any of which rooms are designed for occupancy by fifteen or more persons, shall be provided with one or more fire-proof stairways, chutes or toboggans constructed on the outside thereof, placed in such position and as many in number as may be designated by the Commissioner of Labor, or his Deputy Commissioner of Labor. Such fireproof stairways, chutes or toboggans shall connect the cornice with the top of the first story of such building by a wrought iron or steel platform, properly surrounded with a wrought iron or steel railing, said platform to be constructed on a level with the floor of each story so connected, and of sufficient length to permit access to the same from not less than two windows of each story-said platform shall be so constructed as to be of convenient access from the interior of the building, commodious in size and form and of sufficient strength to be safe for the purpose of ascent and descent, provided, however, that every hotel, boarding, lodging, tenement, or apartment house, there shall also be provided one automatic metallic fire escape, or other proper device, in every outside room of such hotel, boarding, lodging, tenement or apartment house, each automatic metallic fire escape or device to be attached to the inside of said rooms so as to afford an effective means of escape to all occupants who for any reason are unable to reach or use the said fire-proof stairways, chutes, or toboggans, provided, further, that all buildings more than two stories in height used for manufacturing purposes, mercantile

establishments, schools, seminaries, hospitals, asylums or other institutions where twenty-five or more persons congregate at any one time there shall be placed one automatic metallic fire escape or device for every twenty-five persons, for which working, sleeping or living accommodations are provided above the second floor of said building, material, design and location of such escapes to be subject to the approval of the Deputy Commissioner of Labor. Provided, that all therters, moving picture galleries and other places of amusement shall have proper exits; opening outwardly which shall not be less than three feet wide by six feet six inches high, all operating booths or apparatus involving the use of combustible film more than ten inches in length shall be constructed of galvanized iron or other metal, lined with aspectos and otherwise constructed according to the regulations of the Commissioner of Labor, the Deputy Commissioner of Labor or any person deputized by him shall have authority to inspect all such theaters, moving picture galleries or other places of amusement and prescribe regulations for the construction and operation of the same.

For the purpose of carrying out the provisions of this Act the Commissioner of Labor is hereby authorized and required when it shall come to his notice that there is any building in this state where the provisions of this bill are being violated, to inspect such building. inspection may be by the Commissioner of Labor, Deputy Commissioner of Labor or such other person as may be appointed by the Deputy Commissioner of Labor for the purpose of making such inspection. person shall be under the control and direction of the Deputy Commissioner of Labor and are especially charged with the duties imposed, and shall receive such compensation as shall be fixed by the Deputy Commissioner of Labor, not to exceed three dollars a day, together with all necessary expenses. All compensation for services and expenses provided for in this Act shall be paid by the State Treasurer out of the general appropriation for the Bureau of Labor Census and Industrial Statistics, upon the warrant of the State Auditor: Provided, that the Deputy Commissioner of Labor in charge shall present to the Governor, on or before the fifteenth day of December of each year, a report of such inspection with such recommendation as may be necessary.

Section 3. Any owner, lessee, or occupant who shall fail to place or cause to be placed upon such building such fire escape or escapes as required by this Act, shall be guilty of a misdemeanor and upon conviction thereof shall be fined in any sum not less than twenty-five nor more than one hundred dollars and shall stand committed to the county jail until such fine is paid.

Section 4. The County Attorney of each county in this state is hereby authorized and required upon the complaint on oath of the Deputy Commissioner of Labor or other person, to prosecute to termination before any court of competent jurisdiction, in the name of the people of the State of Nebraska; a proper action or proceeding against any person or persons violating the provisions of this Act.

Section 5. Section 6929a of Cobbey's Annotated Statutes of 1909 are hereby repealed.

Approved April 10th, 1911.

Specifications for Fire Escapes-In Force July 10th, 1911.

All fire escapes to be permanently and securely fastened to buildings. Stairway fire escapes for three-story buildings shall be made with one or more landings for the third story and one or more for the second. Each landing to be at least the full width of the windows and not less than 24 inches deep. Said landings to be built sufficiently strong to support at least three hundred (300) pounds to the square foot.

Where stairway escapes are located at the end of a hallway, one of the two balconies required must be a double balcony of sufficient length to permit an easy pitch for stairs. Stairway fire escapes for buildings four stories or more in height shall have landings not less than 10 feet long, 30 inches wide by 3 feet 6 inches deep at each end and balance of landing to be 21 inches deep to allow room for the stairways. Said landings to be supported by four or more brackets made of wrought iron and capable of sustaining at least three hundred (300) pounds to the square foot. Landings made in sections shall be securely bolted or riveted together.

All landings to be made of perforated cost iron frames. Perforations in landings to be not less than 1 inch round, holes 1 inch apart countersunk underneath and to have rough diamond surface on top. Brackets supporting landings to be made of wrought iron, made in a triangular form, with strengthening bar against the wall wherever practicable, and all brackets to be welded at the outer end and bent up one inch so as to hold the landings in place; said brackets to have 1-inch bolt welded on top piece passing through wall and secured on the inside with nut and 4-inch square washers on inside of wall at least %-inch thick. Brackets shall not average more than three feet apart except where landings are 4 feet and 10 inches or less in length, when two brackets made as specified above may be sufficient.

All landings to have double gas pipe railings made of 1-inch gas pipe, and shall have 14-inch gas pipe posts with fittings; said posts to be not less than 30 inches high and spaced not more than 4 feet apart, to be bolted securely to the landings. More ornamental railings may be used at the discretion of the owners, specifications of the same to be submitted to the State Labor Commissioner for his approval.

Stairs

Stairways to be fastened securely to the landings. To have perforated cast iron steps with rough diamond surface to prevent slipping, with strengthening ribs of two ½-inch rods underneath on both edges. Steps

to be %-inch thick by 6 inches wide by 20 inches long, bolted to side stringers with two %-inch bolts at each end. Stringers to be not less than 4x%-inch iron, and when more than 16 feet long to be supported by brackets made as above specified. Steps to be spaced so as to make about 8-inch rise. Stairways to have single gas pipe railings with three or more wrought iron standards to support same. Iron steps made of $\frac{1}{2}$ x1-inch wrought iron, 6 inches tread, may be used instead of cast iron.

All fire escapes to have metallic drop ladder, hoisting ladder, or stairway from the second story landing to the ground.

All buildings over three stories high to have standpipe with hose valves above the third story and double Siamese automatic valve at the bottom.

Painting

All work must be painted with not less than two coats of best mineral paint, and all holes must be filled up with the best cement. All escapes must be kept in thorough repair and in working order, and shall be painted at least once in two years.

Automatic Metallic Escapes

Automatic metallic escapes shall be those constructed of metallic substances and shall work automatically without requiring any special knowledge of the operator. Said escapes shall first have been approved by the Commissioner of Labor or his Deputy and they shall, upon approval of all such devices issue a certificate stating that said device has been so approved and all persons offering for sale such device may be required by the purchaser, to produce such certificate of approval.

MOVING PICTURE MACHINE BOOTH

Framing

To be made of 1 in. x 1 in. x 1/4 in. angle iron properly braced to secure rigidity and securely rivited or bolted at joints.

Size

To be not less than 5 ft. x 5 ft. x 6 ft.

Sheating

To be galvanized sheet iron of not less than No. 20 B. W. guage, or \(\frac{1}{4}\)-in. hard asbestos board securely riveted or bolted to angle iron frame.

Floor

To be of the same material as sides and roof, riveted or bolted to iron frame, covered with a rubber or cork matting.

Door

To be not larger than 2 ft. x 5 ft. of same construction as booth and arranged to close automatically either by means of a spring to be placed on the exterior and riveted to frame work, or by a metal rope and weight attachment. Two latches of steel to be provided and to be placed one 12 inches from top and the other 12 inches from bottom of door. Latch bars to be connected by metal rod, so that one operation opens both latches.

Orifice or Opening

(For operator's view or through which picture is thrown). To be not larger than 12 in. x 12 in. and provided with a gravity door of same construction as booth, held in position by fusible links placed in series with fine cord, so arranged that normally one of the links is suspended directly over the film when in slide of apparatus, or arranged so as to be normally closed and held open by pressure of the operator's foot.

Shelf

To be same construction as booth.

Ventilation

Booth to have an opening for ventilation which must be flanged to carry standard conductor pipe for exhausting the hot air generated in operating the machine. An exhaust fan should be placed at outer end of the conductor (or stove) pipe, unless connection is made with chimney.

NOTE—If possible, connection for ventilation should lead to chimney or outside of building in order to carry off exploisive gases formed by the incomplete combustion of the film.

Machines

To be equipped with feed and take up reels in metal receiving boxes, joints of same to be riveted or flanged. A shutter must be placed in front of the condenser arranged so as to be normally closed and held open by pressure of the foot.

Electric Wiring

Must be in accordance with N. E. code and all wire employed within the booth for whatever purpose must have an approved slow burning insulation and secured in place entirely on insulating supports. No portable cord will be permitted within booth, unless the same is pertinent to a proper connection to the lantern itself.

Extra Films

Must be kept in metal box with tight fitting covers.

Doors and Exits

In every theater, moving picture gallery or other place of amusement where combustible films over ten inches in length are used there shall be not less than one exit 3 ft. wide by 6 ft. 6 in. high, and where the seating capacity shall be more than 200 there shall be two exits, which shall in all cases be located at the opposite end of the room from whence is operated the operating booth.

In every theater or other place of amusement above the first floor there shall be at least one outside exit of the size of not less than 3 feet in width and 6 ft. 6 in. in height, and for every 300 persons for which seating capacity is provided, on each floor of said building, there shall be one additional outside exit of above dimensions, all of said doors to open outward and to remain unlocked at all times during a performance or when there is more than twenty persons in said theater or place of amusement.

Permits

No fire escape shall be erected near an elevator or stairway, nor shall an automatic escape, fireproof stairway, chute or toboggan be erected until a permit has first been secured from the Deputy Commissioner of Labor. All theaters, moving picture booths or other places of amusement should secure a permit before making alterations which are subject to approval. All permits issued free of cost.

All exits to theaters and moving picture shows to be designated by a red light.

CHILD LABOR LAW

Section 1. No child under fourteen years of age shall be employed, permitted or suffered to work in, or in connection with, any theater, concert hall, or place of amusement, or any place where intoxicating liquors are sold, or in any mercantile institution, store, office, hotel, laundry, manufacturing establishment, bowling alley, passenger or freight elevator, factory or workshop, or as a messenger or driver therefor, within this state. It shall be unlawful for any person, firm or corporation to employ any child under fourteen years of age in any business or service whatever during the hours when the public schools of the town, township, village or city in which the child resides are in session.

Section 2. No child between fourteen and sixteen years of age shall be employed, permitted or suffered to work in any theater, concert hall or place of amusement, or in any mercantile institution, store, office, hotel, laundry, manufacturing establishment, bowling alley, passenger or frieght elevator, factory or workshop, or as a messenger or driver therefor within this state, unless the person or corporation employing him procures and keeps on file and accessible to the truant officers of the town or city, the State Commissioner of Labor and his deputies, and the members of the State Board of Inspection, an employment certificate as hereinafter prescribed, and keeps two complete lists of all such children employed therein, one on file and one conspicuously posted near the principal entrance of the building in which such children are employed. Upon the termination of the employment of a child registered, and whose certificate is so filed, such certificate shall be forthwith transmitted by the employer to the city or county superintendent of schools of the county in which the child resides, and shall be turned over to the child named therein upon demand. officer, the State Commissioner of Labor, or his deputies, or any member of the State Board of Inspection may make demand on any employer in whose place of business a child apparently under the age of sixteen years, is employed or permitted or suffered to work, and whose employment certificate is not then filed as required by this section that such employer shall either furnish him within ten days, evidence satisfactory to him that such child is in fact over sixteen years of age or shall cease to employ or permit or suffer such child to work in such place of business. The same evidence of the age of such child may be required on the issuance of an employment certificate as hereinafter provided; and the employer furnishing such evidence shall not be

required to furnish any further evidence of the age of the child. In case such employer shall fail to produce and deliver to the truant officer, the State Commissioner of Labor, or Deputy State Commissioner of Labor, or member of the State Board of Inspection, within ten days after demand for the same, such evidence of the age of any child as may be required of him under the provisions of this Act, and shall thereafter continue to employ such child or permit or suffer such child to work in such place of business, proof of the giving of such notice and of such failure to produce and file such evidence shall be prima facie evidence, in prosecution brought for a violation of this section, that such child is under sixteen years of age and is unlawfully employed.

Section 3. An employment certificate shall be approved only by the superintendent of schools of the school corporation in which the child resides, or by a person authorized by him in writing, or where there is no superintendent of schools, by a person authorized by the school district officers; provided that no school district officer or other person authorized as aforsaid shall have authority to approve such certificate for any child then in or about to enter, his own employment, or the employment of a firm or corporation of which he is a member, officer or employee, or in whose business he is interested. The officer or person approving such certificate shall have authority to administer the oath provided for herein or in any investigation or examination necessary for the approval thereof. No fee shall be charged for approving any such certificate nor for administering any oath or rendering any service therein in respect thereto. The board of directors of each school corporation shall establish and maintain proper records where copies of all such certificates and all documents connected therewith shall be filed and preserved and shall provide the necessary clerical service for carrying out the provisions of this act.

Section 4. The person authorized to issue an employment certificate shall not issue such certificate until he has received, examined, approved and filed the following papers duly executed: (1) The school record of such child, properly filled out and signed as provided in this Act, showing that the child has completed the work of the Eighth Grade of the public schools, or its equivalent, or is regularly attending night school in compliance with Section (8) of this Act. (2) A Passport, or duly attested transcript of the certificate of birth or baptism, or other religious or official record, showing the date and place of birth of such child. A duly attested transcript of the birth certificate filed according to law with a registrar of vital statistics, or other officer charged with the duty of recording births, shall be conclusive evidence of the age of such child. (3) The affidavit of the parent, or guardian, or custodian of a child, which shall be required, however, only in case none of the documents mentioned in clause two (2) of this section can be produced and filed, showing the place and date of birth of such child; which affidavit must be taken before the officer issuing the employment cer-

Such employment certificate shall not be issued until such child has personally appeared before, and been examined by, the officer issuing the certificate and until such officer shall, after making such examination, sign and file in his office a statement that the child can read and legibly write simple sentences in the English language and that, in his opinion, the child is fourteen years of age, or upwards, and has reached the normal development of a child of its age, and is in sound health and is physically able to perform the work which it intends to do. In doubtful cases such physical fitness shall be determined by a medical officer of the board or department of health, or by a physician provided by the State Board of Inspection. Whenever the person authorized to issue the employment certificate is in doubt about the age of a child, he may require the party or parties making application for the certificate to appear before the judge of the juvenile court. or county judge, where the question of the age of the child shall be determined and the judgment of the court shall be final and binding upon the person issuing the certificate. Notice of the hearing before the court shall be given to some one of the persons mentioned in section two authorized to demand inspection of employment certificates. Every employment certificate shall be signed in the presence of the officer issuing the same by the child in whose name it is issued.

Section 5. Such certificate shall state the date and place of birth of such child and describe the color of the hair and eyes, the height and weight and any distinguishing facial marks of such child and that the papers required by the preceding section have been duly examined, approved and filed and that the child named in such certificate has appeared before the officer signing said certificate and been examined.

Section 6 The school record required by section four shall be signed by the teacher and principal of the school which such child has attended and shall be furnished, on demand to the child entitled thereto. It shall contain a statement certifying that the child has regularly attended the public schools, or schools equivalent thereto, or parochial schools for not less than three-fourths of the school year previous to his arriving at the age of fourteen years, or uring the year previous to applying for such school record, and is able to read and write simple sentences in the English larguage. It shall also state the amount of work completed by such child, measured by the grade of the public day schools in the city or county. Such school record shall also give the age and residence of the child as shown on the records of the school and the name of its parents, or guardian, or custodian.

Section 7. The superintendent of schools, or the school directors of any village, town, or county, shall transmit between the first and tenth day of each month to the office of the State Commissioner of Labor a list of the names of the children to whom certificates have been issued.

Section 8. Regular attendance of a child at any public evening

school, maintained in any city or village where instruction is given not less than twenty weeks each year and three evenings each week and two hours each evening, shall authorize the issuance of a certificate of employment where the schooling certificate fails to show that the child has completed the work of the eighth grade, required by section six; provided, the schooling certificate and all other certificates are otherwise in due form and the applicant further produces a certificate from the superintendent, or principal, of such public evening school, showing the regular attendance of such child at such evening school; and provided further, every child employed under such certificate shall furnish to his employer a weekly certificate showing regular attendance each week while the evening school is in session. Whoever employs a child in violation of the provisions of this section shall be fined not more than fifty dollars (\$50.00) for each offense. A parent, guardian or custodian who permits a child under his control to be employed in violation of the provisions of this section shall be fined not more than twenty dollars (\$20.00).

Section 9. The age and schooling certificate provided for herein shall be made out upon blank forms furnished by the State Commissioner of Labor and shall be in the following forms:

Duplicate copies of such certificate shall be retained in all cases by the person or officer issuing the same and kept on file by the superintendent of schools or school district directors of the country in which the same is issued.

Section 10. No person under the age of sixteen years shall be employed or suffered or permitted to work in any theater, concert hall, or place of amusement, or in any mercantile institution, store, office, hotel, laundry, manufacturing establishment, packing house, bowling alley, passenger or freight elevator, factory, workshop, beet field, or as a messenger or driver therefor, more than forty-eight hours in any one week, nor more than eight hours in any one day, nor before the hour of six o'clock in the morning, nor after the hour of eight o'clock in the evening. Every employer shall post in a conspicuous place in every room where such children are employed a printed notice stating the hours required of them each day of the week, the hours of commencing and stopping work and the hours when the time or times allowed for dinner or for both meals begin and end. The printed form

of such notice shall be furnished by the State Commissioner of Labor. Whoever employs a child under sixteen years of age Section 11. and whoever, having under his control a child under such age, permits such child to be employed in violation of Section one (1), two (2), ten 10), or twelve (12) of this Act shall for each offense be fined not more than fifty dollars (\$50.00); and whosoever continues to employ any child in violation of either of said sections of this Act, after being notified by a truant officer, or a Deputy Commissioner of Labor, or a member of the State Board of Inspection, shall for every day thereafter that such employment continues be fined not less than five (\$5.00) nor more than twenty dollars (\$20). The failure of an employer of child labor to produce, upon the request of a person authorized to demand the same, any employment certificate or a list required by this Act, shall be prima facie evidence of the illegal employment of any child whose employment certificate is not produced or whose name is not listed. Any corporation or employer retaining employment certificates in violation of Section 2 of this Act shall be fined ten dollars (\$10.00). Every person authorized or required to sign any certificate or statement prescribed by Section four (4) or five (5) of this Act, or who knowingly certifies or makes oath to any material false statement therein or who violates either of said sections, shall be fined not to exceed fifty dollars (\$50.00). Every person, firm or corporation, agent or manager, superintendent or foreman of any person, firm or corporation who shall refuse admittance to any officer or person authorized to visit or inspect any premises or place of business under the provisions of this Act and to produce all certificates and lists he may have, when demanded, after such person shall have announced his name and the office he holds and the purpose of his visit, or shall otherwise obstruct such officers in the performance of their duties as prescribed by this Act, shall be guilty of a misdemeanor and upon conviction shall be fined in any sum not exceeding fifty dollars (\$50.00), or be imprisoned not to exceed thirty days. The presence of a child under sixteen years of age, apparently at work, in any of the places of business enumerated in Section One (1) of this Act shall be prima facie evidence of his employment therein. It shall be the duty of the Deputy Commissioner of Labor and the several truant officers to enforce the provisions of this Act and every county attorney, when informed by any officer or person authorized to inspect places where child labor is employed, that any of the provisions of this Act have been violated, shall file or cause to be filed information against the person or persons guilty of such offense and cause the arrest and prosecution of the same. Provided, that nothing in this Act shall prevent any other person from causing the enforcement of the provisions of Truant officers shall visit the places of business enumerated in Section One (1) of this Act to ascertain whether any children are employed therein contrary to the provisions of this Act, and they shall report any cases of such illegal employment to the Commissioner of Labor and to the County Attorney.

Section 12. It is hereby made the duty of the governor, immediately upon the passage of this Act, to appoint five persons, two, at least, of whom shall be women, who shall constitute the Board of Inspectors and who shall serve without compensation. The term for which such inspectors shall serve is hereby made one, two, three, four and five years, respectively. The appointment shall designate the term for which each inspector is appointed. The governor shall, each year appoint one person to serve for a period of five years and shall also fill any vacancy on the board. The chairman shall be the executive head of the board and shall reside in the county employing the largest number of children under the age of sixteen years. Any member of the Board of Inspectors shall have power to demand the examination, by some regularly licensed physician, to be selected by the Board, of any child under sixteen years of age who may seem physically unable to perform the labor at which such child may be employed, and no child under sixteen shall be employed who cannot obtain a certificate of fitness from such physician.

Section 13. No child under the age of sixteen years shall be employed in any work which by reason of the nature of the work, or place of performance, is dangerous to life or limb or in which its health may be injured or its morals may be depraved. Any parents, guardian, or other person, who, having under his control any child, causes or permits said child to work or to be employed in violation of this section shall be guilty of a misdemeanor and upon conviction shall be fined not more than fifty dollars (\$50.00), or be imprisoned not exceeding ten days.

Section 14. All Acts and parts of Acts in conflict herewith are hereby repealed.

Section 15. Whereas an emergency exists, this Act shall take effect and be in force from and after its passage and approval.

MINIMUM WAGE LAW OF THE STATE OF NEBRASKA

AN ACT to establish a minimum wage commission and to provide for the determination of minimum wages for women and minors.

Be It Enacted by the People of the State of Nebraska:

Section 1. (Minimum wage commission, establishment, members). There is hereby established a commission to be known as the Nebraska Minimum Wage Commission. The governor is hereby made a member of said commission. Within thirty days from the passage and approval of this Act he shall appoint the following additional members: Deputy Commissioner of Labor; a member of the political science department of the University of Nebraska; one other member who shall be a citizen of the state. At least one member of said commission shall be a woman. Each of the above appointments shall be for a period of two years and may be renewed thereafter. Any vacancy occurring in the commission shall be filled by the governor. Within ten days after such appointment the commission shall meet and organize by the election of a chairman and secretary.

Section 2. (Expenses; office). Each commissioner shall be paid all traveling and other expenses incurred in the performance of his or her official duties. The commission may incur other necessary expenses not exceeding the biennial appropriation therefor and shall be provided with an office in the state house or at the State University.

Section 3. (Wages, females, investigation). It shall be the duty of the commission to inquire into the wages paid to the female employees in any occupation in the commonwealth, if the commission has reason to believe that the wages paid to a substantial number of such employees are inadequate to supply the necessary cost of living and to maintain the worker in health.

Section 4. (Wage board). If after such investigation the commission is of the opinion that in the occupation in question the wages paid to a substantial number of female employees are inadequate to supply the necessary cost of lving and to maintain the worker in health, the commission shall establish a wage board, consisting of not less than three representatives of employers in the occupation in question and of an equal number of persons to represent the female employees in said occupation, and in addition thereto the three appointed members of the commission to represent the public The chairman of the commission shall be chairman of the wage board and shall make rules and regulations governing the procedure of the board and exercise jurisdiction over all questions

arising with reference to the validity of the procedure and the determinations of the board. The secretary of the commission shall be secretary of the wage board and keep such record of hearings and arguments as the wage board shall direct. The members of wage boards shall be compensated at the same rate as jurors in district court; they shall be allowed necessary traveling and other expenses incurred in the performance of their duties, these payments to be made from the appropriation for the expenses of the commission.

Section 5. (Minimum wage, investigation, report). The commission may transmit to each wage board all pertinent information in its possession relative to the wages paid in the occupation in question. Each wage board shall take into consideration the needs of the employees, the financial condition of the occupation and the probable effect thereon of any increase in the minimum wages paid, and shall endeavor to determine the minimum wage, whether by time rate or piece rate suitable for a female employee of ordinary ability in the occupation in question or for any or all of the branches thereof, and also suitable minimum wages for learners and apprentices and for minors below the age of eighteen years. When two-thirds of the members of a wage board shall agree upon minimum wage determinations, they shall report such determinations to the commission, together with the reasons therefor and the facts relating thereto, and also the names, so far as they can be ascertained by the board, of employers who pay less than the minimum wage so determined.

(Decision wage board, review by commission. Publication employers, review by court). Upon receipt of a report from a wage board. the commission shall review the same, and report its review to the governor. If the commission approves any or all of the determinations of the wage board it shall, after not less than thirty days' notice to employers paying a wage less than the minimum wage approved, give a public hearing to such employers, and if, after such public hearing the commission finally approves the determination, it shall enter a decree of its findings and note thereon the names of employers, so far as they may be known to the commission, who fail or refuse to accept such minimum wage and agree to abide by it. The commission shall, within thirty days thereafter, publish the names of all such employers in at least one newspaper in each county in the commonwealth, together with the material part of its findings, and a statement of the minimum wages paid by every such employer. Any employer upon filing a declaration under oath in the district court to the effect that compliance with such decree would endanger the prosperity of the business to which the same is made applicable, shall be entitled to a stay of execution of such decree, and a review thereeof with reference to the question involved in such declaration. Such review shall be made by the court under the rules of equity procedure, and if it shall be found by the court that compliance with such decree is likely to endanger the prosperity of the business to which the same is applicable.

then an order shall issue from said court revoking the same. The type in which the employes' names shall be printed shall not be smaller than that in which the news matter of the paper is printed. The publication shall be attested by the signature of at least a majority of the commission.

Section 7. (Wage determination, report to legislature). In case a wage board shall make a recommendation of a wage determination in which a majority but less than two-thirds of the members concur, the commission, in its discretion, may report such recommendation and the pertinent facts relating thereto to the legislature.

Section 8. (Minimum wage, reconsideration). Whenever a minimum wage rate has been established in any occupation, the commission may, upon petition of either employers or employees, reconvene the wage boards or establish a new wage board, and any recommendation made by such board shall be dealt with in the same manner as the original recommendation of a wage board.

Section 9. (Special license.) For any occupation in which a minimum time rate only has been established, the commission may issue to any woman physically defective a special license authorizing the employment of the license (e) for a wage less than the legal minimum wage: Provided, that it is not less than the special minimum wage fixed for that person.

Section 10. (Wages, minors, investigation, determination). The commission may at any time inquire into the wages paid to minors in any occupation in which the majority of employees are minors, and may, after giving public hearings, determine minimum wages suitable for such minors. When the commission has made such a determination, it may proceed in the same manner as if the determination had been recommended to the commission by a wage board.

Section 11. (Emploses register; witnesses, fees). Every employer of women and minors shall keep a register of the names and addresses of all women and minors employed by him, and shall on request permit the commission or any of its members or agents to inspect the register. The commission shall also have power to subpoena witnesses, administer oaths and take testimony, and to examine such parts of the books and records or employers as relate to the wages paid to women and minors. Such witnesses shall be summoned in the same manner and be paid from the treasury of the commonwealth the same fees as witnesses before the District Court.

Section 12. (Statistics). The commission may cause such statistics and other data to be gathered as it may deem desirable, and the cost thereof shall be paid out of the appropriation made for the expenses of the commission.

Section 13. (Discrimination against employe, penalty). Any employer who discharges or in any other manner discriminates against any employee because such employee has testified, or is about to testify, or because such employer believes that the employee may testify, in any

investigation or proceeding relative to the enforcement of this act, shall be deemed guilty of a misdemeanor, and upon conviction thereof shall be punished by a fine of twenty-five dollars for each offense.

Section 14. (Employers disobeying decrees, publication). The commission shall from time to time determine whether employers in each occupation investigated are obeying its decrees, and shall publish in the manner provided in Section Six, the name of any employer whom it finds to be violating any such decree.

Section 15. (Newspapers, refusing to publish findings of commission, penalty). Any newspaper publisher or publishers refusing or neglecting to publish the findings, decrees or notices of the commission at its regular rates for the space taken shall, upon conviction thereof, be punished by a fine of not less than one hundred dollars for each offense.

Section 16. (Publication, damages). No member of the commission and no newspaper publisher, proprietor, editor or employee thereof, shall be liable to an action for damages for publishing the name of any employer in accordance with the provisions of this Act, unless such publication contains some wilful misrepresentation.

Section 17. (Reports). The commission shall make a report to the governor on or before the first day of November, 1914, and biennially thereafter, covering the results secured and data gathered in its work. It may also make such additional reports in the form of bulletins from time to time as in its judgment shall best serve the public interest.

Approved, April 21, 1913.
